April 11, 1924.

Dear Alice:—

The other day I met Lucile Gordon and she said that you had written to her and asked what had become of me. So I decided to write to you.

About five months ago we moved up on 9th St. and we have lived here ever since.

How are you anyway Say but I'd like to see you. Maybe sometime

I will come over that way and if you tell me where you live I will come and see you.

Esther (my little sister) has been sick with the measles but she is better now.

Glen (my brother) has joined the coast guard so he is never home any more and it has certainly been lonesome

Say, but I hope you get this letter and that you will answer soon

As ever

Grace.
